

# INSTALLATION INSTRUCTIONS

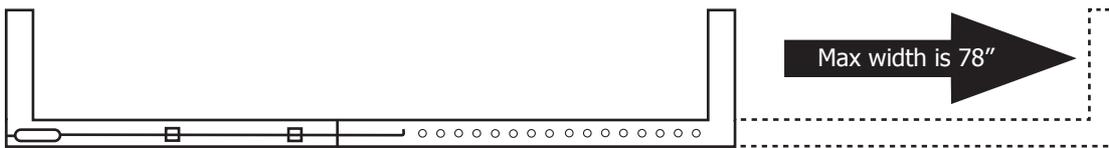

Tools you will need to install this child safety device.

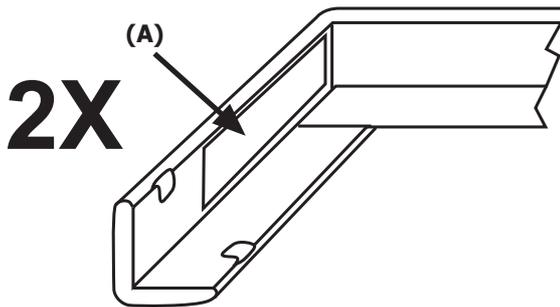

## HEARTH GUARD COMES PREASSEMBLED!

- 1** TURN HEARTH GUARD UPSIDE DOWN. Remove packing masking tape from end of adjustment rod.

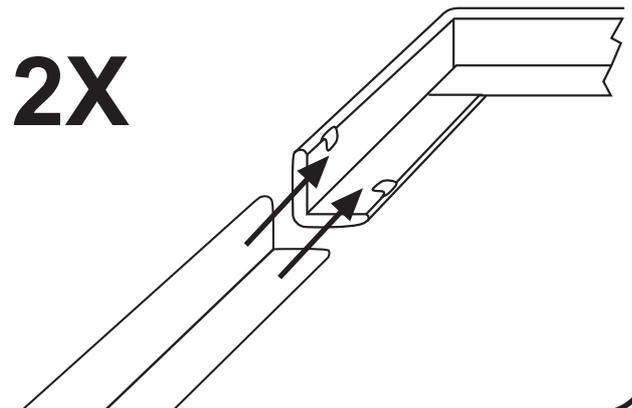

- 2** EXTEND HEARTH GUARD TO FIT YOUR HEARTH. Place on your hearth and adjust by extending guard to the right to an approximate fit.

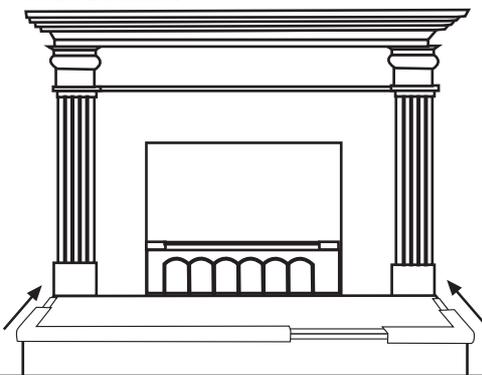

- 3** REMOVE PROTECTIVE STRIPS FROM BOTH INSIDES OF HEARTH GUARD (A). Set these aside they will be reused.

- 4** ADD HEARTH SIDE EXTENSIONS. The two (2) L brackets will slide into open ends through frame clips. Do this on each side of the Hearth Guard.

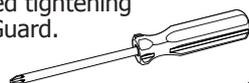

- 5** PLACE ON HEARTH AND ADJUST SIDE EXTENSIONS TO YOUR HEARTH DEPTH. When depth is correct, replace the protective strips from **STEP 3** making sure to overlap the L brackets inserted. This will help hold it in place when installed.

- 6** REMOVE HEARTH GUARD. UNDERNEATH PLACE HOOK END OF ADJUSTMENT ROD (★) IN NEAREST HOLE - Hearth Guard will need to be slightly longer than the fireplace hearth.

- 7** USING YOUR PHILLIPS HEAD SCREWDRIVER, TIGHTEN HEARTH GUARD ONTO HEARTH. Find exposed tightening screw on corner of Hearth Guard.

- 8** CUT EXTRA FOAM PIECES TO FIT IN OPEN GAPS. **NOTE: The two (2) smaller pieces are for the extension back ends.** Remove double-back adhesive backing (white) and secure onto exposed metal.
